

If Your Child:

TESTS POSITIVE for COVID-19 ... **ISOLATE**

A positive home test with symptoms should be considered positive. Day 0 is the first day of symptoms or positive test if asymptomatic.

Your child regardless of vaccination status should:

Stay home for
5 days

Stay away
from family
members*

If your child has
no symptoms
or symptoms
are resolved
after **5 days**, they
can leave the house.

Your child should
wear a mask[†]
outside of home to
complete **10 days**
from day 0

If your child
has a fever,
keep them home
until fever
goes away.

* All family members that have been exposed to your child should see below for next steps.

** Inform all recent contacts that you are COVID positive

† If your child can't mask consistently or is under age 2 isolate for 10 days.

IS EXPOSED TO SOMEONE with COVID-19 ... **QUARANTINE**

Monitor symptoms for 10 days. Day 0 is the day of the close contact exposure.

If your child is **up to date** on COVID-19 vaccinations

OR had **COVID-19** in the past **3 months**:

Your child should
wear a mask
around others for
10 days.

Test on day 5,
if possible.
If your child develops symptoms they should be tested for COVID-19 and stay home.

Stay home for
5 days.
After that continue
to **wear a mask**
around others for
5 additional days.

If they can't
quarantine,
they must
wear a mask
for **10 days**.

If your child develops
symptoms, they
should be
tested for COVID-19
and **stay home**. Test
on **Day 5** if possible.
